Google Certified AI Pro | AWS Certified Solution Architect | Certified Scrum Product Owner (CSPO)

PROFESSIONAL SUMMARY

Product Leader with **Business Intelligence & AI** leadership skills shaping omnichannel **AI Powered** - digital experience for enterprise-scale 40M users, 2.7B annual sessions, subscription, billing, and commerce platforms. Governs **\$70M+ product portfolios**, drives **digital first** conversion **7–10% every year (~40% cumulative)** and eliminated **200K+ assisted-channel contacts** annually by launching self-service features that reduce support volume and improve monetization across web and native apps. By pairing predictive data analytics with rigorous **A/B experimentation**, I help enterprise organizations pivot from legacy cost centers to agile, high-retention product ecosystems, customer research, and analytics to translate friction points into roadmap priorities.

CORE COMPETENCIES

- **Product Strategy & Roadmap:** 0-to-1 Product Discovery, Portfolio Governance (\$70M+ P&L), Multi-Year Product Vision, Executive Stakeholder Alignment, Capital Allocation & ROI Optimization, OKRs & Success Metrics, A/B testing.
- **Enterprise AI & Automation Platforms:** Generative AI Integration, Natural Language Processing (NLP), Predictive Analytics, Agentic AI Framework.
- **Mobile & Digital Experience Leadership:** Mobile-First Customer Experiences, Native Mobile Applications (iOS & Android), Responsive Web, Omnichannel Journey Mapping, Accessibility & Usability.
- **FinTech, Loyalty & Regulated Platforms:** High-Volume Financial Processing (\$150B+ Daily), Co-Brand Credit Card, CCPA & Data Governance, Risk & Fraud Prevention Mitigation.
- **Product Operations & Delivery:** Agile Product Development, Cross-Functional Team Leadership, Feature Definition & High-Quality Documentation, Continuous Discovery.
- **Monetization & Funnels:** Conversion Rate Optimization (CRO), Modular Pricing & Subscription Architecture, Business-to-Consumer (B2C) E-Commerce Journeys, Churn Reduction.

PROFESSIONAL EXPERIENCE

Verizon Data Services, Basking Ridge, NJ

Senior Product Manager - Digital Experience | March 2022 – June 2026

- **Product Strategy & Roadmap:** Defined the strategic product vision and multi-year roadmap for enterprise-scale omnichannel platforms, emphasizing reusable platform capabilities and digital-first self-service that boosted operational ROI by 20%.
- **Portfolio & Governance:** Governed a \$70M+ Enterprise Product Portfolio, orchestrating initiatives monthly across digital commerce, loyalty rewards, and core billing architecture.
- **Mobile-First Customer Experiences:** Led the mobile-first strategy and execution for the digital plan-change journey across responsive web and native mobile applications (iOS and Android), enabling the 35M+ existing-customer base to migrate to modern pricing tiers.

- **Fintech & Regulated Strategy:** Spearheaded the full product lifecycle of high-volume digital financial product Visa Credit Card serving 35M+ active customers, converting Market & Customer Research into actionable strategies.
- **Modular Product Architecture:** Led product strategy for Modular Pricing & Subscription Architecture across 2 scrum teams, serving 10M+ monthly users while driving a 22% increase in add-on attachment rates.
- **Conversion Rate Optimization (CRO):** Spearheaded end-to-end e-commerce funnel upgrades for B2C E-Commerce Journeys—driving \$120M+ in online sales, boosting mobile conversion by 19%, and cutting support tickets by 28%.
- **AI Platform Evolution:** Productized Gen AI-driven web self-service workflows within the Chat platform and customer profile, synthesizing bill-shock explanations to divert 1.2M high-volume customer care calls annually.

Verizon Global Services, Basking Ridge, NJ

Technical Product Manager – CX Transformations & BI | January 2018 – March 2024

- **Gen AI Platform Discovery:** Spearheaded the 0-to-1 product discovery to launch a Generative AI-powered insights platform utilizing Voice of the Customer (VOC) data to measure product performance & highlight journey friction .
- **Go-To-Market (GTM) Execution:** Orchestrated the swift GTM strategy for an AI-Based Customer Journey Analyzer, growing to 300+ daily users and cutting case handling time by 70%, resulting in a projected \$6M annual savings.
- **Enterprise Tech Integration:** Directed the integration strategy for a leading CX technology stack (Qualtrics, Sprinklr, Quantum Metric), consolidating complex analytics into a unified servicing platform to increase CSAT and productivity by 30%.
- **Product Analytics & Optimization:** Discovered Digital Operations Center Platform leveraging Real-Time Interaction Analytics, reducing transactional friction by 25% and receiving the CIO Recognition Award.
- **Cross Functional Collaboration:** Eliminated over 200K annual call center contacts by conducting root cause analysis to pinpoint digital-first service exits, translating insights into funded, high-impact platform roadmaps.
- **Risk & Fraud Mitigation:** Partnered with internal Fraud Prevention and Risk Management teams during credit card and payment flow rollouts to mitigate risk and emerging fraud trends with minimal impact on user experience.

Verizon Global Services (Consultant), Bedminster, NJ

Solution Architect - Governance & QA | October 2014 – January 2018

- **Enterprise Cloud Solutions:** Led the end-to-end implementation of Service Virtualization cloud solutions for over 30 enterprise application teams, delivering a 20-25% reduction in infrastructure costs and performance testing cycles.
- **Customer Service Enablement:** Engineered and deployed an end-to-end training architecture for call center representatives using service virtualization, generating annual operational cost savings of \$350K to \$400K and accelerating agent onboarding.
- **Technical Mentorship:** Mentored and trained cross-functional application teams on system performance monitoring, optimization methodologies, and diagnostic tooling.

JP Morgan Chase (Consultant), Jersey City, NJ / New York, NY

Automation Architect | September 2011 – October 2014

- **Large-Scale Payment Operations:** Delivered and supported large-scale payment modernization programs processing \$150B+ in daily transaction volume, ensuring

underlying platform architecture supported massive enterprise scale and high operational stability.

- **Digital Quality Governance:** Partnered with pre-sales and technical leadership teams to construct complex technical project proposals, securing enterprise Quality Control and governance contracts for 35+ client applications in core retail banking and financial services.
- **Scale Deployment:** Conducted educational bootcamps and strategy sessions for client managers, driving successful customer onboarding and scaling technical staffing to over 100 resources across global sites.

Royal Bank of Scotland (Formerly NATWEST), Gurugram, India

Business System Analyst | October 2010 – August 2011

- **Digital Servicing QA Lifecycle:** Drove the QA lifecycle for 6+ web banking applications using extensive automation techniques with HP Automation suite integrated with JIRA.
- **Automated Health Check Suite:** Led the design & development of an automated health check suite that delivers comprehensive functional health reports for end-to-end digital transactions, encompassing over 600 API checks, workflow monitoring, and payment alerts.

JP Morgan Chase (Consultant), Bangalore, India

Automation Engineer | April 2008 – August 2010

- **Service-Oriented Architecture (SOA):** Designed and developed Business Process Testing (BPT) assets and implemented SOA testing using ITKO LISA for non-UI applications (MQ's, Databases, Web services, Unix Boxes), ensuring secure backend financial and card transactions.

EDUCATION & ACCOLADES

- **Bachelor of Technology (Electronics & Communication Engineering),** Kurukshetra University, India
- **Verizon Wireless - CIO Recognition Award Recipient 2023** for Iconic Contributions.
